A VISUAL JOURNEY

Mona Moleo is an independent artist who mainly works with energetic experimental painting and has an ecstatic and emotionally flowing style. Color and form create vivid sensations and a unique approach that captivates with a powerful presence.

Since dedicating herself to painting, Mona has used unusual methods such as blowing up colors. In her art, she uses a non-representational style that differs from the strict geometry of abstract art by incorporating multiple layers and non-linear concepts into her compositions. Her characteristic blowing technique, where she uses straw pieces to blow on wooden surfaces instead of using brushes, has become established.

However, Mona always paints in pairs, one full of chaos and free-flowing energy, the other meticulously calculated to correctly depict proportions and perspectives in her works. Intuitive abstractions meet neoplasticism in her work. With the mixture of chaos and order, Mona's artworks are a manifestation of her spiritual and intuitive nature.

Mona's art is a reflection of her inner being, which is both beautiful and powerful. She is a personality that one must engage with, an artist whose work is imbued with a deep sense of spirituality and mysticism. Her artworks take the viewer on a journey of self-discovery, exploring the depths of one's own consciousness.
